Experience

Craftopia <i>Founder & Creator</i>	Hyderabad, India Nov. 2023 – Present
– Manage an independent handmade crafts business, handling product development, inventory, customer communication, order management, and fulfillment. – Create digital content and manage online branding across social media platforms to engage customers and grow the business. – Use customer feedback and market trends to improve products, manage inventory, and develop new offerings.	

Projects

Craftopia – Handmade E-Commerce Website <i>HTML5, CSS3, JavaScript, Firebase, Git, GitHub</i> Live Demo	2026
– Developed a responsive handmade-products e-commerce website featuring 30+ products across multiple categories with product detail pages and dynamic product rendering. – Implemented product search, category and price filtering, sorting, shopping cart, wishlist, quantity management, and WhatsApp-based ordering using JavaScript and local storage. – Integrated Firebase Authentication and Firestore to support user authentication and customer product reviews, and deployed the website using GitHub Pages.	
FreshSip – Responsive Juice Ordering Website <i>HTML5, CSS3, JavaScript, Git, GitHub</i> Live Demo	2026
– Designed and developed a responsive fruit juice ordering website with modern UI, product pages, navigation, and reusable layouts. – Implemented shopping cart functionality using JavaScript with quantity updates, item removal, total calculation, and local storage for cart persistence. – Created login, signup, contact, and product detail pages with consistent styling and deployed the project using GitHub Pages.	

Achievements

- Built a YouTube channel with 400+ subscribers through consistent content creation and audience engagement.
- Achieved 350K+ views on a single YouTube video, demonstrating strong content creation and audience reach.
